

TUITION INFORMATION

It has always been the policy of Life Christian University to provide the highest level of spiritual, academic education possible at the most affordable tuition cost. By allowing the student to pay on a per-course basis, we are, in essence providing an interest-free, in-house student loan.

Tuition is split 60%-40% between the local campus and the Main Campus with the local campus retaining the larger portion.

Your Campus implements the program as follows:
